Hagatna, Guam 96932

Fellow Union Members:

Since my last letter of March 19, 2010 I had hoped to be provided a response but as of this date, none was received. As that letter was written on behalf of the union members of Agana Heights Elementary School they had expected a response. After being asked a number of times if I had received any kind of response I contacted the GFT office to check for any response but to no avail. As a steward I take the charge of my position seriously and feel at this point I have disappointed my fellow union members. I am disheartened that none of you felt the importance to respond to my letter.

As put forward in my last letter "the legitimate concerns raised by members including *how* on-going issues are being addressed, *how* elections and amendments to the constitution are conducted, *when* elections are next to be conducted, and *how* union funds are being spent" are still left unanswered.

The membership at Agana Heights Elementary School has requested that I follow-up at this time. Please provide me the names of the Officers and Executive Committee, which department each represents, and the process in which they assumed their position, as well as, when each is up for election, and committee meeting agendas and minutes of each meeting for the last six months including any financial statements for such period. Please also provide the date of each amendment made to the constitution over the last seven years including minutes and members present for each such amendment that was discussed and/or decided upon.

We are additionally concerned that we have received no response regarding the constitutionality of the union's current structure and the eligibility of its current president and would request each of your positions to membership regarding these issues.

Still awaiting your response.

Carol T. Somerfleck, AHES GFT Steward
